DESCRIPTION

NEUTRAL ELEMENT, EN-910

Neutral elements are used as a support for the different cooking containers, pans and devices. They are also used as a working top and to prepare the dishes that are to be served.

2 mm stainless AISI-304 steel top with rounded edges for easy cleaning. Laser cut and automatic welding for a perfect adjustment of sides between modules with square angle finish.

High temperature enamelled cast iron chimney protector

Modules ready to have a filling water inlet or water tap installed at the back.

Dimensions: 800 x 930 x 290 mm.
